

Race Event Safety Rules - Strictly Enforced

1. All pilots – racing or freestyle, must be AMA members
2. All racing entries will be subject to a safety inspection before being allowed to fly
3. Pilots will not be permitted to cross the flight line while quads are in the air
4. Pilots must wait until all quads have landed prior to retrieving a downed quad on the field
5. Fail safes must be configured to stop the aircraft's motors in the event of a lost signal
6. Fail safes may be tested as part of the safety inspection
7. Only land in the designated landing area
8. No freestyling at the end of a race!
9. Please unplug your battery as soon as you retrieve your quad
10. No one may fly while officials and volunteers are on the field
11. Pilots not following rules or instructions of officials will be disqualified and may be asked to leave the event venue

Other rules may apply based on event location and event specifications.
