

2023 Annual Impact (NYS participation anticipated to triple for 2024)

- Statewide (Region II) Championship & Educator Workshop hosted 50 students & 35 technology educators
- National Championship hosted 125 students & 40 educators from 4 Regional Championships: AL, CA, CO & NY
- hands-on training reached 25+ educators & transferred skills to nearly 1,000 students
- LIVE demonstrations Statewide reached 10,000+ educators, students & families in 7 years
- 65 college students, including 3 SUNY Polytechnic Institute clubs & 3 classes volunteered with CNY Drones

CNY Drones Encourages:

- exploration of drone technology & STEM in higher education & employment
- creative & cooperative participation by students and adults
- collaboration between the community & SUNY Polytechnic Institute tech student clubs

CNY Drones Connects:

- regional drone tech industry professionals
- middle school, high school & college students
- instructors of robotic drone technology

CNY Drones Targets:

- students, age 12+ - at the critical age of career path exploration
- schools, tech clubs & community groups around the NYS UAS Test Site, Rome, NY
- lower income, rural & inner-city populations – those impacted the greatest by funding cutbacks
